## INSPIRING THE VISIONARY IN YOU...

Now that I'm in my 30s, I noticed that I may have excellent technique and perfect fundamentals from the years of practice, I was also a bit less energetic and less flexible.

Since starting Ultimate Duo, I can keep up with my teammates who are in their 20s. When I participate in competitions in my 60s in the "Master" category, I shall not be a master – "I shall be a legend".

While I enjoy being a scuba diving instructor, it is also very physically demanding especially for females – carrying scuba tanks, helping divers in changing equipment, all under unforgiving hot and cold environments.

With Ultimate Duo, I can work around all that and still remain energetic at the end of the day!

## UNLEASH ATHLETIC POTENTIAL

It's unbelievable that I took my 5km marathon after 25 years graduation!

My first experience in marathon was during my junior high school first year. After the marathon test, I fell sick for one week. Since then, I don't like sport activity.

Now, after the marathon, I still have energy to attend a 6 hours class and went to work as usual the next day. Isn't that amazing?

Thanks Ultimate Duo for unleashing my inner athlete!
